

## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Este informe contiene información muy importante sobre su agua potable.  
Tradúzcalo o hable con alguien que lo entienda bien.

### DRINKING WATER WARNING

Hilmar County Water District water has detected high levels of nitrate.

### DO NOT GIVE THE WATER TO INFANTS UNDER 6 MONTHS OLD OR PREGNANT WOMEN OR USE IT TO MAKE INFANT FORMULA

The following water sample results were received between December 19, 2023 and December 29, 2023:

Well #6: Levels between 10.4 milligrams per liter (mg/L) and 12.1 mg/L.

Well #7: Levels between 6.8 mg/L and 12.3 mg/L.

**Wells 6 and 7 are blended prior to being served to the customers of the Hilmar County Water District water system.**

Water sample results from a blended location on for the dates mentioned above were:

Blend Sample Point (near TID Yard): Levels between 10.2 mg/L and 14 mg/L.

This is above the nitrate standard, or maximum contaminant level (MCL), of 10 mg/L. Nitrate in drinking water is a serious health concern for infants less than six months old.

#### What should I do?

- **DO NOT GIVE THE WATER TO INFANTS.** *Infants below the age of six months who drink water containing nitrate in excess of the MCL may quickly become seriously ill and, if untreated, may die because high nitrate levels can interfere with the capacity of the infant's blood to carry oxygen. Symptoms include shortness of breath and blueness of the skin. Symptoms in infants can develop rapidly, with health deteriorating over a period of days. If symptoms occur, seek medical attention immediately.*
- **PREGNANT WOMEN SHOULD NOT CONSUME THE WATER.** *High nitrate levels may also affect the oxygen-carrying ability of the blood of pregnant women.*
- Water, juice, and formula for children under six months of age should not be prepared with tap water. Bottled water or other water low in nitrates should be used for infants until further notice.
- **DO NOT BOIL THE WATER.** Boiling, freezing, filtering, or letting water stand does not reduce the nitrate level. Excessive boiling can make the nitrates more concentrated, because nitrates remain behind when the water evaporates.

- If you have other health issues concerning the consumption of this water, you may wish to consult your doctor.

### **What happened? What is being done?**

Nitrate in drinking water can come from natural, industrial, or agricultural sources (including septic systems, storm water run-off, and fertilizers). Levels of nitrate in drinking water can vary throughout the year and even sometimes, day to day as Hilmar County Water District has observed. We will let you know if the amount of nitrate is again below the limit.

Water from Well 6 and Well 7 is blended prior to being served to the Hilmar County Water District water system. Recently, the blended point showed sample results over the MCL. The Hilmar County Water District is conducting cycle testing of our sources to determine compliance solutions. In addition, the Hilmar County Water District is working on projects that will help us blend and monitor nitrate and arsenic levels for treatment and compliance.

For more information, please contact Curtis Jorritsma, General Manager at 209-632-3522 or P.O. Box 1060, Hilmar, CA 95324.

Additional contact information: State Water Resources Control Board, Merced District Engineer, (559) 447-3316.

*Copies of this notice are being distributed by hand. Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses).*

### **Secondary Notification Requirements**

Upon receipt of notification from a person operating a public water system, the following notification must be given within 10 days [Health and Safety Code Section 116450(g)]:

- **SCHOOLS:** Must notify school employees, students, and parents (if the students are minors).
- **RESIDENTIAL RENTAL PROPERTY OWNERS OR MANAGERS** (including nursing homes and care facilities): Must notify tenants.
- **BUSINESS PROPERTY OWNERS, MANAGERS, OR OPERATORS:** Must notify employees of businesses located on the property.
